

2018 January Publicity-Website-Evaluations Report

Bertha Yagos

Publicity/Website:

1. Website is up to date. If there are any questions, always use the email envelope at the top of each web page. I monitor that daily several times a day. Usually I can answer the majority of questions, and if not, I forward the email to the appropriate person. info@pdtca.org
2. Pre-registration is going well. Remind teachers the cut-off is February 19th at 9:00 a.m. Reps need to remind teachers in their local to pre-register.
3. The two First Aid Sessions are doing their own registration. That link is on the pre-registration page of our website.
4. Sched mobile site is up and running.
5. Thanks to all of you for being such a great team to work with.
6. Handouts are all posted with each session on the Sched mobile site. There is a link to Sched in each session description in the handouts section of the description
7. The home page of the website will have links to a printable program in letter size as well as a letter sized version of the big posters we hang at convention. These documents will be available on the website by February 1st.

Evaluations:

1. I am not sure what is happening for evaluations. I have not received any word from provincial ATA, but am assuming they will send a link for us to add to Sched and that provincial ATA will tabulate the evaluation results.
